

THE ISRAELI WHISKY SOCIETY

Whisky has grown and thrived throughout the world. Since the latter part of the 20th century, Whisky has become one of the leading alcoholic beverages on earth. In Israel, as in most of the world, the demand for Whisky and related information has considerably grown.

In response to this growing demand, the Israeli Whisky Society (**IWS**) was established in the spring of 2003, with the clear objective of answering the needs of all Whisky enthusiasts in Israel. **IWS** is a professional society that works in close cooperation with all Whisky importers as well as with the duty free shop in an effort to enhance the Whisky culture throughout our domain. Our activities include the dissemination of [MONTHLY NEWSLETTERS](#), professional seminars and [TASTINGS](#).

In addition, **IWS** works closely with the American and British embassies in Israel and has held major whisky events at the ambassadors' residence.

IWS has also launched a number of significant projects. These ventures include the publication of the first high end Whisky book in Hebrew, distillery tours and importing and bottling of whisky casks for **IWS** members.

IWS currently has over 3,500 members and is growing daily.
